

British Renewable Energy Award Categories 2016

- NEW Energy Storage** - for a live project (delivered or in progress) whether centralised, distributed or mobile and at any size.
- NEW Smart Energy System** - for a system that supports the roll-out, or take-up, of renewable energy and energy storage whilst enhancing value and usefulness.
- NEW Community** - for a community group which has been active in developing a renewable energy project or programme of installations in their area during 2015.
- NEW Customer Service Recognition** - for an energy supplier (including those supplying via a PPA) delivering customer service excellence or innovation whilst adding value to their customers.
- ★ **Company** - for the company that's done the most in the past year to advance UK renewables.
- ★ **Financial Leadership** - for a financial product that has accelerated the deployment of renewables in the UK during past year.
- ★ **Innovation** - for any innovative, renewable energy device, invention or application which has achieved a major milestone or reached the market since January 2015.
- ★ **Installer** - for a company which has excelled in the installation of small-scale energy generation systems in homes; offering a high quality experience for consumers wishing to buy or lease equipment.
- ★ **Leadership** - for a company or organisation that is mainstreaming renewable energy through the scale of its investment and commitment to secure its energy needs from renewables.
- ★ **Pioneer** - for a company or organisation in a sector not previously associated with renewables that has now become involved and created a pathway that others can follow.
- ★ **Project** - for a company that has developed, contributed to, or consulted on, an outstanding building-integrated, on-site or noteworthy stand-alone project.
- ★ **Sustainability** - from organics recycling, to projects achieving zero waste, to companies rethinking waste or those offering an innovative, sustainable product or service.
- ★ **Young RE Professional** - for an individual within the first 5 years of their career in renewable energy, who has already achieved success/impact and who has shown potential as a future leader in the industry.
- ★ **Low Carbon Transport** - recognising quality, commitment and innovation in low carbon vehicles - cars, vans, buses, road freight or on farm vehicles, powered by clean electricity or sustainable biofuels - and alternative vehicle fuels.
- ★ **Communications Agency** - for the communications agency that has done most to enhance awareness or championed positive change for renewables in key opinion formers, parliament, government or the public in the past year.
- ★ **Judges' Award** - The judges have previously decided to make their own award and will do so again this year as we combine this award with the Champion Award. This could be awarded to an individual for lifetime achievement, or for any other outstanding contribution to renewables not covered by the above categories.
