

# Maximising Opportunities for AD Assets

16 January 2019 - The Priory Rooms, Birmingham B4 6AF

09:00-09:30 **Coffee and registration**

## Beyond Biogas

09:30-09:55 Beyond Biogas: What could the future of AD look like?  
*Michael Köttner, IBBK*

## Commercial management

**Chair: Dr Will Mezzullo, John Laing Capital Management Ltd**

09:55-10:20 Selling biogas output to maximise your power price  
*Kristina Rabecaite, Limejump*

10:20-10:45 Reducing costs through improving plant management and compliance  
*Thomas Minter, Malaby Biogas*

10:45-11:10 Maximising income through electricity export to private wire  
*Ed Bastow, Material Change*

11:10-11:40 **Coffee**

11:40-12:05 Making the most of digestate to minimise nutrient losses through emissions  
*Innes McEwen, Future Biogas*

12:05-12:30 Beyond FITs and RHI: Biomethane for transport  
*Will Llewellyn, Red Kite Management*

12:30-12:40 Questions

12:40-13:40 **LUNCH**

## Getting the most out of feedstocks

**Chair: Justin Dampney, Eco-Sustainable Solutions**

13:40-14:05 Waste overview: status quo & horizon scanning for food waste to AD  
*Claudia Amos, Anthesis Group*

14:05-14:30 Alternative and new feedstock supply for AD  
*Dr Chris Rose, Amur*

14:30-14:55 Understanding feedstock storage fundamentals to retain maximum value  
*Will Wilson, ARK Agriculture*

14:55-15:05 Questions

15:05-15:35 **Coffee**

## Improving process performance

**Chair: Anelle Buchanan, Black & Veatch**

15:35-16:00 The value of using KPI's to monitor and optimise performance of AD plants  
*Becky Greaves, Biogen*

16:00-16:25 Optimising biogas yields and process efficiency  
*Tim Elsome, FM Bioenergy*

16:25-16:50 Improving performance through engineering modifications  
*Dr Amaya Arias-Garcia, Suez*

16:50-17:00 Questions
