

REA EVENT:

HEAT 2022 CONFERENCE

Decarbonising Buildings

Conference highlights to include;
What The Heat and Buildings Strategy means for the construction industry
How will The Future Homes and Future Building Standards drive decarbonisation

AT: During UK Construction Week, ExCel London
ON: Thursday, 5th May 2022 | 10:30am - 5:00pm

BOOK NOW

DECARBONISING BUILDINGS CONFERENCE

PROGRAMME | 10:30am - 5:00pm

Session 1: What does the Heat and Buildings Strategy mean for the construction sector?

Summary of 2020-2040 renewable heating policy as laid out in the strategy

Also includes a summary of support mechanisms;

- Boiler Upgrade Scheme (BUS)
- Home Upgrade Grant (HIG)
- Market Based Mechanism
- other key policy to support decarbonisation of heat in homes

The Future Homes and Future Building Standards - How will standards drive decarbonisation?

Session 2: Decarbonising Domestic Buildings Showcase: Technology Case Studies

- Biomass
- Heat Pumps
- BioLPG
- Thermal Storage
- Biomethane and Hydrogen

LUNCH BREAK - 90 MINUTES | lunch, networking and exhibition

Green Heat Networks: Unlocking the opportunity

Panel Discussion 1: How do we decarbonise non-domestic buildings?

Panel discussion between different technologies

Panel Discussion 2: Smart Energy Systems in Buildings - How do we meet a building's low carbon energy demands for heat, power and EV Charging?

Panel discussion

Please note that delegates are able to access UK Construction Week from 9:30am, an hour before the show officially opens, and a longer lunch break allows for a visit to the exhibition floor.
