- Tariff rates
- Budget caps

- Ongoing obligations
- Periodic data
- Sustainability

- Guidance
- Public reports
- Data

- Apply to the scheme
- Access your account

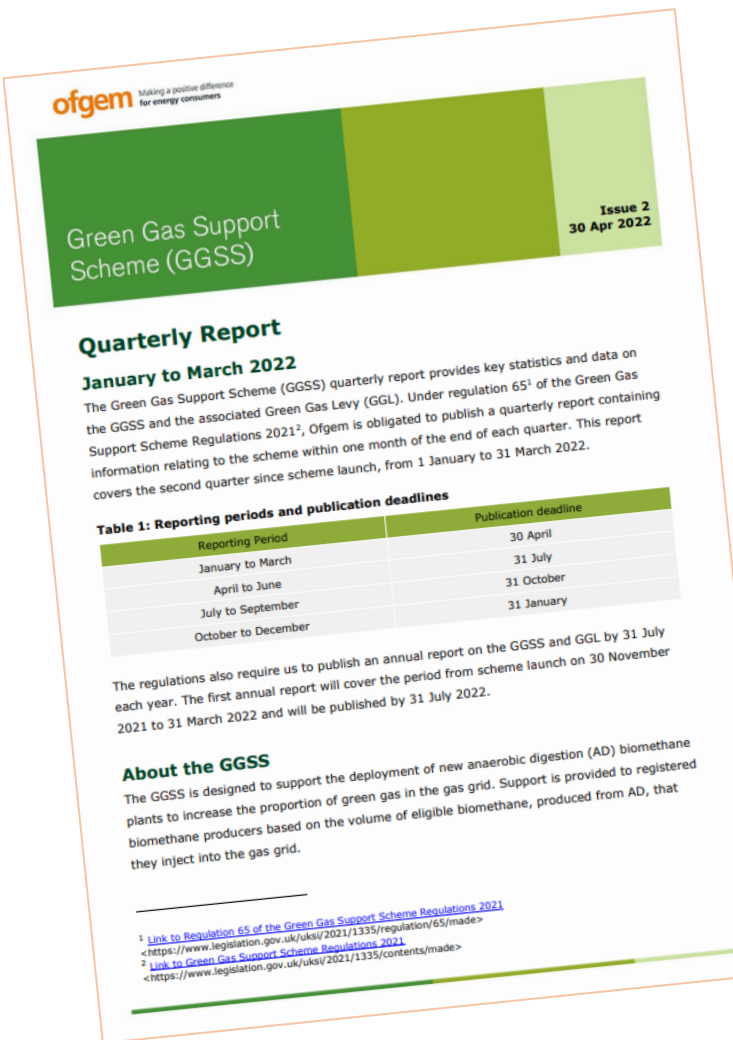

- Guidance v1.0 published in February
 - To present the regulations in a more digestible format
 - Provide guidance on our operational processes and chosen administrative approach

Our guidance **is not legal advice**

Our guidance **is not technical advice**

We recommend you read our guidance before applying

- Future updates will include:
 - Additional detail on the process for submitting periodic data
 - Additional detail on the change of registered producer process
- Any updates will be clearly communicated to users

Quarterly reports are published at the end of the first month of each quarter. These provide information on the scheme and key metrics including:

- Number of applications and registrations
- Additional capacity applications
- Budget allocation
- Scheme developments
- Volume of biogas injected by participants
- Value of periodic support payments made
- Information on the levy

We would be keen to hear if there is any additional information that should be included.

We also publish an annual report each July, which covers the above and will likely include additional commentary and data.

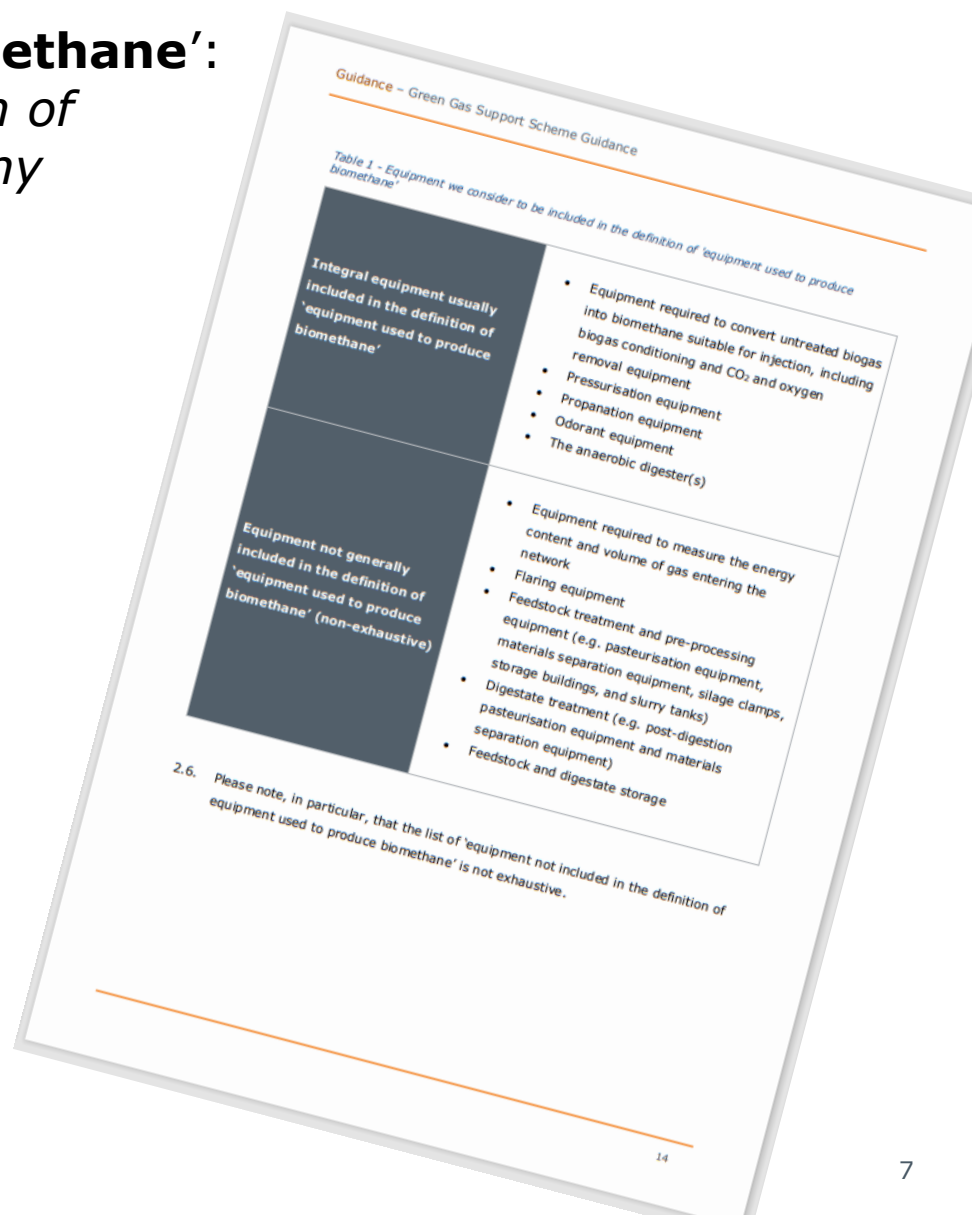

'Equipment used to produce biomethane':

"equipment integral to the production of biomethane for injection, including any anaerobic digester."

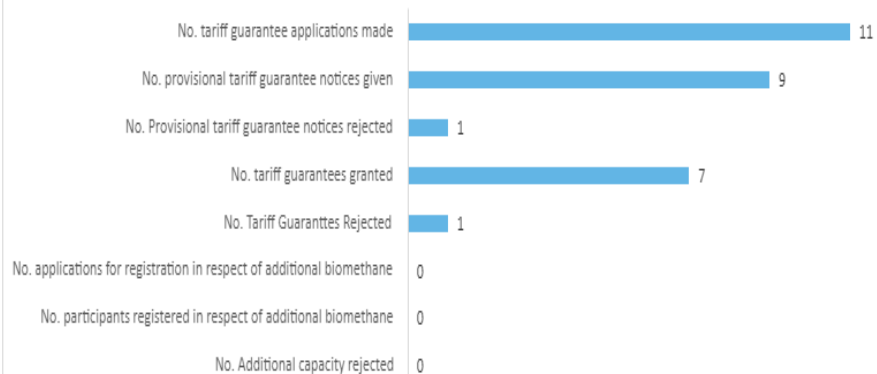

List of equipment which falls under this definition **defined in the GGSS Guidance**

This equipment cannot have been previously used:

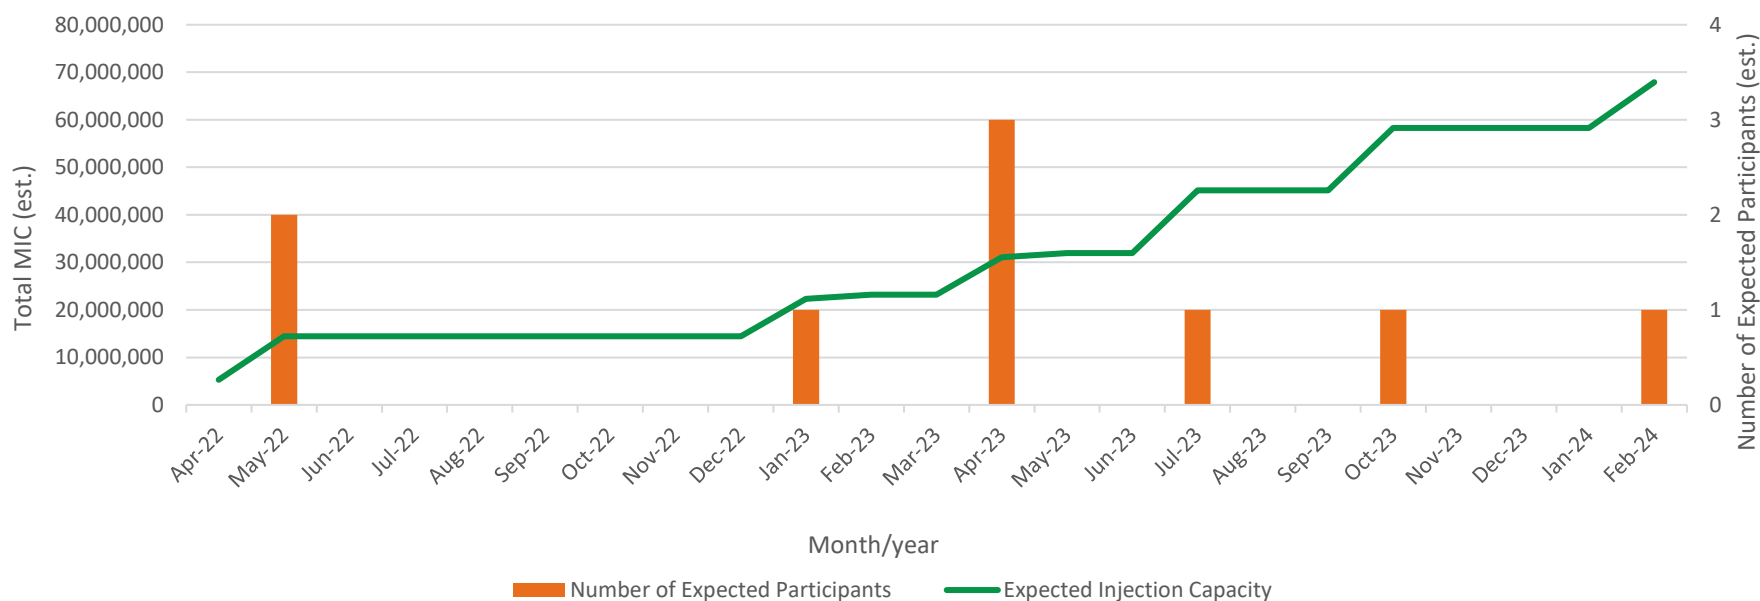

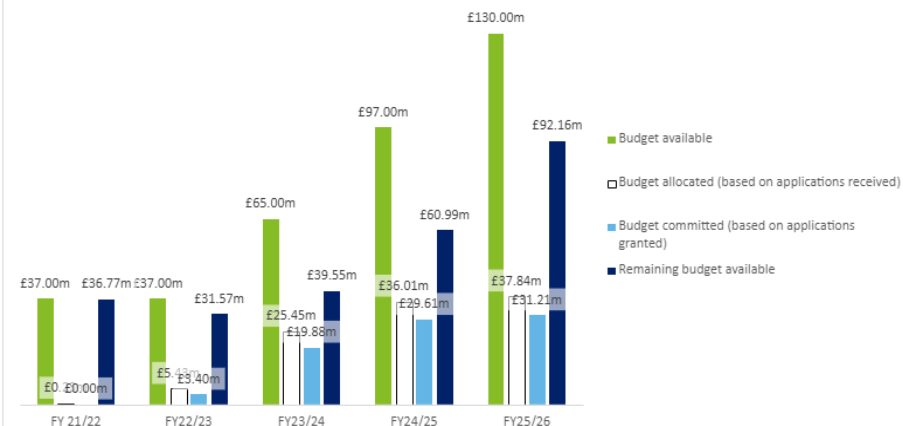

- for an active/withdrawn RHI registration
- For a currently active/recently withdrawn RHI application
- to produce biogas/biomethane prior to 30 Nov 2021

Application Status

Budget Status by FY

Upcoming releases

- Next release scheduled for end May
- Next major functionality to be released is intended to include the periodic data submission process MFA login, and bank detail capture
- Subsequent release priorities will be the payments process and stage 3

Stage 3 applications

- Applications will be submitted via an offline application form
- Stage 3 application form will sent to applicants who have complete the stage 2 application successfully

Check your answers before submitting

Biomethane eligible energy summary	5MB	Change
Total eligible biomethane injected (for this quarter)	kWh	Change
Total eligible biomethane injected (for year 1 so far)	kWh	
Sustainability declaration	5MB	Change
Current payment value before deductions	£150,340	

Your final payment value may be different to your indicative payment value

Your indicative payment value is based on the injection data and meter readings you've submitted. We'll confirm your final payment value after we've reviewed your periodic data submission.

Find out [how we'll calculate your final payment value \(opens in new tab\)](#).

Now submit your periodic data

By submitting this information you're confirming that, to the best of your knowledge, the details you're providing are correct.
