@REAssociation

Agenda

- Welcome and speakers' introductions
- *Impact of Draft Greenhouse Gas (GHG) Protocol "Land Sector and Removals Guidance" on biomethane producers and consumers* – **Jesse Scharf , Green Gas Certification Scheme's Director**
- *How the benefits of applying compost and digestate to soils can be accounted for under the Greenhouse Gas (GHG) Protocol* – **Megan Muller-Girard, Research Hub Manager at Renewable Energy Assurance Ltd**
- Q&A

@REAssociation

Agenda

Green Gas Certification Scheme's Scheme Director, Jesse Scharf

Jesse will:

- chart the changes being proposed to the use of RGGOs under the GHGP and how affected organisations can engage with the administrators of the GHGP
- look at how CO₂ capture and manure use will be accounted under the draft guidance including differences with NDRHI/GGSS/RTFO GHG calculations
- inform GGCS and REA members about a new review process initiated by WRI that may affect the use of Renewable Electricity Guarantees of Origin (REGOs)

@REAssociation

Next steps

- **GGCS and REA are coordinating a response to the review of the draft guidance. Jesse leading on the response.**
- The estimated review period is early September to end of November.
- Send a any comment to jscharf@greengas.org.uk, cc: kiara@r-e-a.net by **15th November 2022**.
- We would also encourage you to make direct representation in the Review process, by joining the GHG Protocol Guidance [Review Group](#).

@REAssociation
