SPONSORSHIP & BRANDING OPPORTUNITIES

REcharge UK, the EV infrastructure forum of the REA, are hosting an innovative event covering multiple areas of the EV space where everyone in the room will learn something new and meet likeminded experts in their field. The REA prides itself in its ability to communicate complex information clearly and will share key insights into a number of often under discussed areas in the EV space.

This conference will leave delegates with lots of new information, ideas and contacts, and is ideal for policy experts in the electric vehicle space, those working around the sector who are perhaps less policy focused and curious about developments in the wider space, those who want to know more about certain niche topic areas and those who want to develop their network and find out more about the REA/REcharge UK.

Don't miss this opportunity to network and gain a wealth of knowledge that can help you stay ahead of the curve in the EV industry. We're expecting a strong turnout from
