

CREATING SUSTAINABLE FOOD CHAINS

Marine Avisse

Head of Agricultural Services - Veolia UK

27th March 2025

VEOLIA'S AGRICULTURAL SERVICES

The wake-up call

Regulation:

By 2025, all businesses must separate food waste for recycling.

Commitments:

Net Zero targets and Courtauld 2030 goals loom large.

Expectations:

Shoppers want transparency and action on sustainability.

Veolia's Unique Ambition for Agriculture

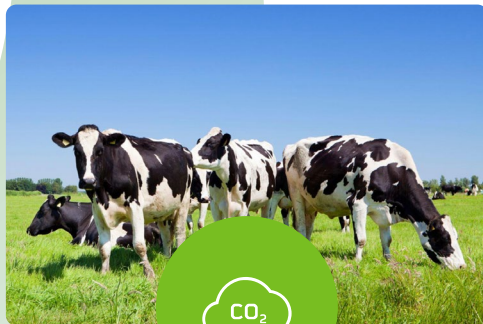

A new service offering to support regenerative farming and create sustainable food chains

**Solutions for
food security**

**Soil regeneration:
low-carbon and
organic fertiliser**

**Landspreading
and land
restoration**

Animal bedding

**Food
surplus/waste
valorisation**

**Low-carbon
fertilisers**

Carbon Removal

RECYCLING ORGANIC MATERIALS TO REDUCE EMISSIONS IN THE FOOD CHAIN

Animal Bedding

- Recycling solutions for our customers
- Turning waste into high-quality product
- Reducing use of virgin material / resources
- Reduce land used to grow straw
- Production of ~ 50,000 tpa of bedding
- Biosecure bedding
- Improving animal welfare
- Sold to integrators and independent farms

WOOD

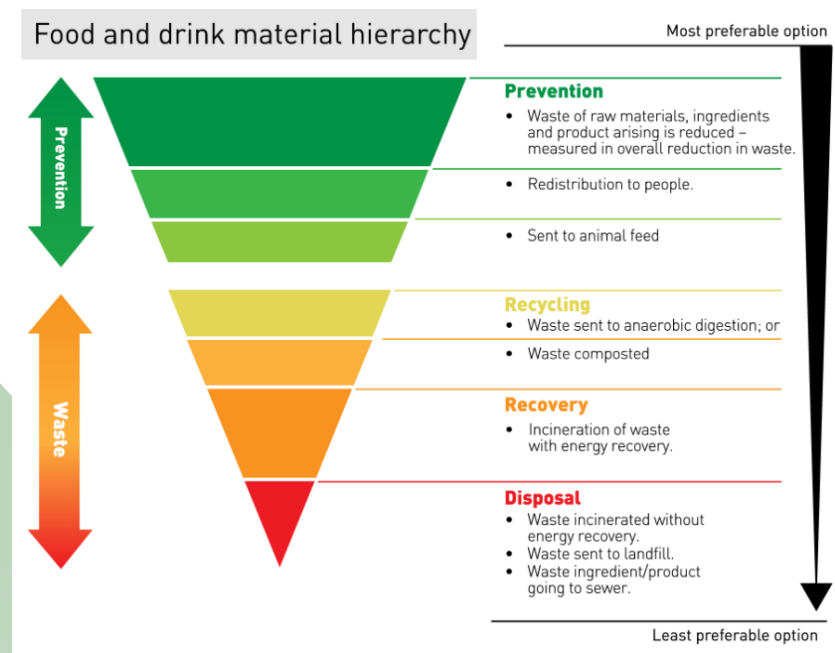

PAPER PULP

Animal Feed

An increased pressure to reduce food waste and valorise surplus

- Simpler Recycling and impact on the AD market (gate fees)
- The UK Food & Drink Pact (ex Courtauld Commitment)
- Ambition 2030 (FDF)
- Net Zero Roadmaps
- Customers' pressure

Animal Feed

Veolia is opening its first animal feed facility in the North of England

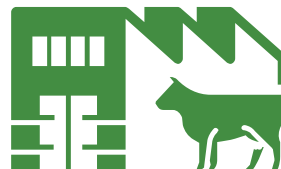

Bakery

Produce

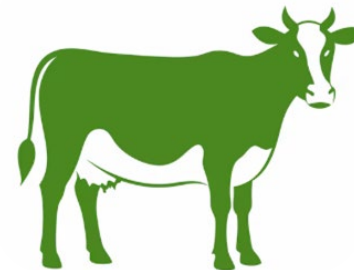

Dairy

50,000 tpa

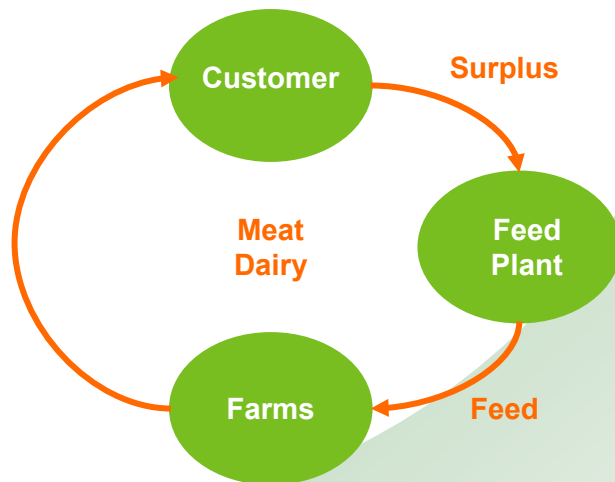

Ingredients
for
Feed

Animal Feed

Working with customers to create circular solutions and products that remain within the food chain

- Surplus, not waste
- High-value products for feed production
- Quality assurance
- Haulage and processing capabilities
- Thinking out of the box
- Direct access to farmers
